

SCIENCE IS FUN

www.scifun.org

Fostering Community Appreciation of Science

Science literacy enlightens and enables people to make informed choices, to be skeptical, and to reject shams, unproven conjecture, and to avoid being bamboozled into making foolish decisions where matters of science and technology are concerned. Science literacy is for everyone—scientists, artists, humanists, all professionals, the general public, youth and adults alike.

“Public sentiment is everything. With public sentiment, nothing can fail; without it nothing can succeed.”

>> Abraham Lincoln
